

Trace Associates Inc. exists to help you have a great life. Our people work hard to understand your needs and exceed your expectations, because we genuinely care about you and your success.

We are an employee-owned professional services firm specializing in environmental science and engineering advisory across Canada.

POSITIVE. FUN. HUMBLE. TRUSTING. TRANSPARENT.

Position | Location: Intermediate Environmental Scientist (Term Position) | Edmonton (St. Albert)

The Opportunity

- We are looking for an Intermediate Environmental Scientist that wants to make a difference with a company that cares about its people.
- Supporting and managing projects within our reclamation and remediation practice areas for a one-year term with the possibility of permanent employment upon term completion.

Responsibilities

- Lead reclamation or remediation fieldwork.
- Project management in the reclamation or remediation practice areas.
- Provide leadership, mentorship, and technical support to junior professionals.
- Build strong relationships with clients, suppliers, landowners/stakeholders, and regulators.

Qualifications

- Graduated from a college or university with a degree or a diploma in a natural resource-based science and eligible for a professional designation from either the AIA, ASPB, CAPF, or APEGA.
- 5-10 years experience working in the reclamation or remediation practice areas.
- Prior project management experience is preferred but not required.
- Can safely operate vehicles and have a valid class 5 driver's licence.

Profile

- Health, safety, and wellness are critical to you.
- You are positive, humble, caring, genuine, and trustworthy.
- You enjoy work life balance and being a part of a people-focused company.
- You take pride in your work.
- An enthusiastic and positive attitude, with an ability to manage multiple priorities.
- You are organized, adaptable, and have a passion for consistently delivering outstanding work.
- Excellent written and verbal communication skills.
