Service Beyond Analysis

AGAT Laboratories is a full-service laboratory with locations across Canada. We are currently looking for motivated individuals to staff a laboratory in a northern community on a **fly-in / fly-out** basis. Multiple positions including Supervisory roles will be required, so please feel encouraged to apply!

### Laboratory Personnel – Northern Alberta Site

#### **Key Responsibilities:**

- Perform a variety of laboratory analyses
- Maintain instrumentation in optimized and calibrated condition
- Troubleshoot instrumentation problems.
- Keep accurate and up to date records
- Review and report data
- Follow all SOPs and QC procedures
- Work closely in a team environment
- Meet quality assurance and turnaround time specifications
- Other administrative/laboratory tasks as assigned
- Become integrated into the camp community

#### **Qualifications:**

- Post Secondary Education in **Chemistry**
- Previous lab experience in a related industry considered an asset
- Problem solving skills
- Organizational and time management skills
- Intermediate computer skills
- Able to work on a team and independently
- Some lifting and carrying (up to 10kgs)

#### **Working Conditions:**

- Positions will initially be based in Calgary or Edmonton and will then transition to a camp-based position at a Northern Alberta facility.
- These positions are site positions working in a camp environment
- Camp accommodations will be provided
- Travel to and from site will be provided to major hubs
- Shifts are 12 hours long day and night; Statutory Holidays are Working Days
- Rotating schedule – 1 week in camp and 1 week out

AGAT Laboratories would like to thank all applicants; however only candidates selected to interview will be contacted. Send your resume and your cover letter in Word or PDF format via <http://www.agatlabs.com/careers>. Please indicate in the comments line what position you are applying for. Thank you for your interest in AGAT Laboratories.
